NOTICE

Dear Patrons,

We would like to take this time to inform all our loyal patrons that we are facing unprecedented challenges bringing in our additional staff to join our team at House of India, hence we have been working with a skeleton staff for last almost 2 years. Besides having several new work permits, our new recruits are unable to join us due to several failed attempts to obtain Transit Visas for the UK or USA. Some work permits expired before they could join our team.

Majority of our staff have not been on vacation since we re-opened after Covid-19 and have been working almost 2 years full on without any vacation and time off. which they desperately need as soon as possible to preserve their health and wellbeing.

It has been a very hard decision as we do not wish to disappoint our dedicated clientele, but the health and welfare of our staff must come first. To give the staff time for their much-needed rest we have had to make a hard decision, that of closing House of India for a few weeks.

**Therefore, House of India will be temporarily closed from
22nd May reopen on 12th of July 2023.**

We sincerely apologize for any inconvenience to you and look forward to your continued support when we reopen with the same smile and delicious food at our award-winning Restaurant “House of India”.

Thank you for your understanding,

Sincerely,

House of India
